THE GREATEST MEDICAL DISCOVERY of the AGE!

Me. KENNEDY of Roxbury has discovered in one of our common pasture weeds a remedy that cures EVERY KIND of HUMOR, from the worst Serofuld does to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over two hundred certificates of its value, all within its wenty miles of Reston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of

One or two bettles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the bair.

Four or six bottles are warranted to cure corrupt and running

form.

One bottle will cure scaly emptions of the skin.

Two or three bottles are warranted to cure the worst case of

ringworm.

Two or three bottles are warranted to cure the most desperate

Two or three bottles are warranted to cure the most desperate case of rhemostism.

Three to four bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the worst case of acrofuls. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should care every humor in the system; yet it is a fixed fact. If you have a humor, it has to start. There are no ifs nor ands, hums nor have about it; sufting some cases, but not yours. I pedided over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the great-est cures ever done in Massachusetts. I gave it to children a year old, to old people of sixty. I have seen poor, puny, wormy-looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache one bottle will always cure it. It gives great relief in catarrh and diaziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed; they always disappear in from four days to a week. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extrawagant encomnums of it that ever man intened to.

JERSEY CITY COMMON COUNCIL. A regular meeting of the Jersey City Comm Council was held on Tuesday evening at the Lyceum,

Ald. Lyon, President of the Board, in the chair. Mr. Samuel R. Tyrrell, reelected as an Alderman of the Fourth Ward to fill the vacancy occasioned by his expulsion in January, appeared immediately after the organization of the Board and took his seat. The lobby of the Council Chamber was filled with an eager andience, who watched with much interest the proceedings. The minutes of the last meeting were read and amorayed.

read and approved.

Ald, Thomrsos then moved a suspension of the rules of the Board, which, being carried, he offered a preamble and resolution to Mr. Tyrrell. The preamble refers to the fact that charges were preferred against Samuel R. Tyrrell then an Alderman of this board, for corrupt conduct and a violation of the rules floard, for corrupt conduct and a violation of the races of this Council, upon which he was subsequently tried and convicted, and expelled by a vote of 12 to 2. No further evidence having been adduced before this body to relieve him from these charges, they remain in full force. He now claims a scat in this Board by virtue of his reelection. This claim, if acceded, would nullify the action of the Common Council upon those builty the action of the Cammon Council agost co-charges, and would render unavailing the power given by the charter to the Common Council to expel an Alderman. The Board believes that the power given by the City Charter to the Common Council is the same as that of the Constitution of the United States, which delares that legislative bodies are the judges of the election returns and qualifications of the judges of the election returns and qualifications of its two members, may determine the rules of its pro-ceedings, and punish its members for disorderly be-havior; and by a two-third vote expel a member. The same provision is also embodied in the Constitu-tion of the State of New-York. Reference is also had to the opinion of Judge Story that a member may be expelled for any misdemeanor which, though not pun-ishable by any statute, is inconsistent with the trust and duty of a legislator. To this preamble was at-tacked the following resolution:

and duty of a legislator. To this preamble was at-tacked the following resolution:

Resolved, That the President of this Common Council be directed not to appoint Samuel R. Tyrrell upon any Committee of this body, and that the Clerk do not call the name of Samuel R. Tyrrell among the list of members in any action, vote or proceedings of this Common Council; and that he be not allowed to take part in any debate on any question which may come be fore this Board of Aldermen.

re this Board of Aldermen.

Before the vote was taken Ald. TYRRELL addressed the Board, protesting against their proposed action, and giving notice that he would contest their action. He had been expelled; had gone back to his constituents; had been reflected, and he claimed his sent.

The preamble and ressiution were then adopted, as follows:

AYES-The President, Aldermen Davenport Clark, Griffith, Thompson, Edge, Wilson, Erwin, Hoffman, Cobb. Hill, and

Thompson, Edge, Wilson, Erwin, Hommson, Cobb. Hill, and Indey-12.

NAYS-Ald. Rappelyes and Tyrrell.

ABSENT-Ald. Keerey.

Excused From Vortice-Ald. Greene.

Ald. DAVENPORT offered a presuble and resolution.

The preamble refers to rumors that the building of the Hook and Ladder Hose Company No. 1 cost more than the contract specified, and some of the members of the Common Council were directly or indirectly interested in it, and in the sale of articles. The presumble, together with a resolution authorizing an presuble, together with a resolution authorizing an prenible, together with a resolution automizing examination into this matter, was adopted. Ald. Davenport, Hill and Griffith were appointed a Committee of Investigation, and were instructed to report to this Board on Tuesday evening next.

The Board then proceeded with its regular business.

ANOTHER CASE OF ABORTION.

ARREST OF THE ALLEGED SEDUCER AND ABORTIONIST.

Coroner Perry received notice yesterday from St. Vincent's Hospital, (Sisters of Charity), in Thirteenth street near Fourth avenues, that Catharine De Breuxen, a Belgian woman, was lying there, apparently at the point of death, from the effects of an abortion which had been produced upon her, as she alleges, by Dr. Chas. Cobel of No. 113 Essex street. The Coroner immediately proceeded to the hospital for the purpose of taking her dying deposition in regard

there, and for a long time previous to her entering the family, she had been visited by Francis Legoutpol, doing business at No. 12 Leonard street, who had, from time to time, promised to marry her, but had as often excused himself from doing so on various grounds; that last Fall she became enciente by him and in December last informed Legoutpol of the fact. He directed her to go Dr. Schneider of No. 128 Houston street to have an abortion performed. She did so several times, and on one occasion Legoutpol went with her; but in each instance the doctor refused to interfere, but finally directed her to a German doctor who lived at No. 113 Essex street. She did as directed, and the abortion was there performed by Dr. Cobel. She remained at his house ten days, and paid him \$15 for his services and \$10 more for board. While there she saw several other females who informed her that the doctor had operated upon them in the same way he had upon her. At the expiration of the ten days the doctor told her that she was able to work, and she left in a carriage to go to Mrs. Aspinwall's, No. 101 Tenth street, where she was at service when she first went to Dr. Cobel's. She there grew worse and the family physician advised her to go the Hospital. At the conclusion of the above testimony Dr. Cobel was arrested and brought before the Coroner, who permitted him to cross-question the witness, but nothing important was elicited, except that the witness admitted having gone out once, two days after she came to the Doctor's house; also that she was not very sick when she finally left it, though her foot was swollen, and she sent for another physician soon after reaching Mrs. Aspinwall's.

The alleged seducer, Legoutpol, who is said to be a wholesale liquor merchant, was also arrested by order of the Ceroner. He denied, in positive terms, having seduced the woman, but admitted being acquainted with her. He gave bonds in \$1,000 to appear when called upon by the authorities, Mr. J. G. Josuez of No. 99 Leonard street being his surety. Dr. Cobel was held to bail in \$2,000. Dr. Finnell is attending the sufferer, and thinks her recovery almost beyond

FIRES.

VIDE IN THE FOURTEENTH STREET MEDICAL COLLEGE. Shortly after 6 o'clock yesterday morning a fire occurred in the fine large building known as the University Medical College in Fourteenth street, between the Third avenue and Irving place. At the time above mentioned the janitor discovered smoke issuing from Professor Bedford's room in the third story, adjacent to the anatomical theater. The janitor promptly gave the alarm, to which the firemen as promptly responded, but owing to the difficulty in getting at the precise location of the fire considerable time elapsed before they could subdue the flames. The flooring in Prof. Bedford's room was cut away, when the beams underneath were found burning. The fire was then extinguished in a few minutes.

Professor Draper's valuable instruments and apparatus were in cases on the side of the wall, and a large number were lying upon a table directly under the floor where the fire originated. The chemical and philosophical apparatus was damaged to a considerable extent by the stream of water poured into Prof. D.'s Lecture room. Some of the instruments on the table were broken by the falling pieces of wall, but these in cases were removed in safety by the firemen.

Fortunately the fire did not extend to the Auatomical Museum, which contained the fine collections of Professors Mott, Valentine, Bedford, Post, and other scientific gentlemen. The greater part of these preparations and specimens are very valuable, and have cost the labor and research of years; their loss would have been irremediable to the College.

The origin of the fire is unknown, although it is supposed to have originated from some defect in the register of the heater connecting with the furnace used for warming the building. The total loss by fire and water will not probably

exceed \$500. Insured in the United States, Jefferson, North American of Philadelphia, New-York Fire and Marine, and Long Island Insurance Companies, Pref. Draper requests us to state that the damage to the building was of so trifling a nature that it will

in no wise interrupt the regular lectures. FIRE IN SIXTY-FIFTH STREET.

About 1 o'clock on Wednesday morning a fire broke out in a shanty in Sixty-fifth street, between Sixth and Seventh avenues, which was totally destroyed, to gether with an adjoining shanty. The buildings were owned by Charles Hoblander, whose loss is stated at about \$200. No insurance. The firemen complain greatly in consequence of the hydrants being frozen. The fire originated from a defective stove-pipe. The houses were occupied by poor families.

FIRE IN WASHINGTON AND AMOS STREETS. bles, owned by E. T. Cragin, and occupied by a number of cartmen, in the rear of No. 656 Washington street. Thence the fire extended to the rear of the blacksmith shop of Thomas Kelly, and to another range of stables fronting No. 186 Amos street, owned by Jre. Ross; also to the building No. 188, occupied as a dwelling by F. Dunbrush and A. Fuller. The firemen were early on the ground; but before they could extinguish the flames, the buildings above mentioned were considerably damaged. Loss of Mr Cragin, \$100. Mr. Perkins, pork butcher, occupied part of the stables on Washington street, and had a herse badly burned. Loss of Thomas Kelly, \$50. Loss of James Sparks, \$450. Loss of Dunbrush & Fuller, \$40. None of the parties are insured.

DESTRUCTIVE FIRE. - A friend writing from Granville Corners, N. Y., Feb. 15, says that a fire broke out about 8 o'clock on Friday evening in the stables attached to the Perry House in that village, consuming, before it stopped, the entire corner block, embracing stores, the Post Office and dwelling houses, and laying in ruins nearly one third of the place. Loss estimated at \$18,000. Insurance, \$8,000. The Perry House was a new and popular house, built at a cost of \$7,000, owned by S. W. Perry and occupied by Mr.

CITY ITEMS.

FOURTH WARD EVENING SCHOOL .- The Evening

Schools supply a great need. Throughout the city, and especially in the lower Wards, most of the pupils are obliged to leave the Day Schools as soon as they are able to earn anything. After their day's work is over most of them can give the two hours from 7 to 9 to study, and so continue what they began in the Day Schools. Many, too, who have been unable to attend school in their youth, embrace this opportunity of learning to read and write. On Tuesday evening we visited the Fourth Ward Evening School in James street. The attendance during the latter part of the Winter is much smaller than in October, November and December. At Christmas certificates of proficiency are granted and after that there is a serious decline in zeal for study. It would probably be better instead of having two terms of twelve weeks each, to have but one with a recess for the holidays, and grant certificates at the close of Winter. The Male Department of this school is under the

charge of Mr. Miles Lovelle. During the first term there were on his register 800 names; during the second there have been but 300 entered. A portion of this less is, of course, to be ascribed to the bad state of the streets and the weather, and a portion to the gradual wearing out of the September resolution to attend school; still something is to be ascribed to the fact that there is no examination and no certificate be-

The Female Department is under the charge of Mrs. Catherine Lynch. It is suffering much in numbers from the same causes as the Male Department. The young women who attend, are, during the day, employed in almost every variety of labor. We give a few occupations entered on the register: Dressmakers demestics, bookfolders, girls at home, milliners, tailoresses, pickle-packers, tobacco-packers, type-setters,

silver-burnishers, for sewers, sewing-machine workers, fancy feather-makers, artificial flower-makers, embroideresses, mattress-makers, paper box-makers, fruitpackers, book-folders, cap-makers, cord and tassel makers, shirt-makers artistes, envelope-folders, brush makers, spice-packers, umbrella-makers, port-mon naie-makers, medicine-packers, powder-packers, cardmakers, mourning collar makers, shopkeepers, laund resses, saddle-sewers, lozenge-makers, lozenge-venders, peddlers generally, gold-cutters, bracelet-makers, cloak-makers, workers in a type factory, watch-case polishers and crochet-workers. The school is dismissed at 9 o'clock with two or three sougs, Mrs. Lynch playing an accompaniment on the piano. Some specwriting, which we saw, were remarkably good These schools will close this month.

SCHOOL EXAMINATION, -School No. 12, in Madison street, near Jackson, was examined yesterday. The edifice is an old one, and although it is in tolerably good order, needs another story to make it comfortable. Primary Schools down cellar are rather behind the times. The Primary department was found to be in good order-340 children were present-and fully to the standard of the Board. Its teachers are Misses Eliza Jarvis, Nancy E. Hoyt, Susanna M Caulley, Julia Knight, Sarah Ball, Rebecca Lowcie, and Anna M. Glazier.

The girls' department excelled, especially in reading; the lowest class examined read with grace and ease. Some fine drawings were exhibited. There were 138 pupils present. The teachers are: Misses Annie M. Marsh, Matilda Mosher, Mary M. Ryckman, Deborah Weeks, Louisa Peters, and Sarah Ganun.

In the boys' department were 215 pupils. The classes examined were excellent in algebra and arithmetic, and some good writing was shown. The teachers are: John H. Fanning, Robert J. Furney, Oscar Hinchman, Lavinia Morell, Harriet O. Simonson, and Augustus B. Sage.

Mr. G. W. Pettit has been teaching music for some time past in this school, and some good music was given to the accompaniment of a fiddle.

In the Board of Councilmen last evening, the subject of the City Charter was discussed in Committee of the Whole, and without taking any decisive action except upon the first section, the whole matter was referred to the Committee on Law Department. No further business of any importance transpired.

GONE TO NICARAGUA.-Ex Councilman Cooper, who was arrested some time ago for defrauding a poor blind man out of a considerable sum of money, which had been intrusted to him by various benevolent persons to give to the poor man, has left the city for Nicarague, leaving his bondsman to answer for him; but inasmuch as no time for his appearance was mentioned in the bond, the maker will probably be none the poorer for it. The fact would hardly be worth mentioning but as an illustration of the manner in which business is sometimes performed in our Police Courts.

ATTEMPT OF HIGHWAYMEN TO KILL & POLICEMAN -On Tuesday night Officer Cook of the Ninth Ward Police, while patrolling his beat, heard the cry o 'murder" proceeding from the corner of Greenwich and Bethune streets, and on proceeding to the place found four men beating a negro in a most brutal man-The officer attempted to arrest them, but they took to their heels, and were followed by hi n some distance, when one of the ruffians suddenly turned and fired a pistol at him, but without effect. Cook gave the alarm rap and continued in pursuit until he los eight of the gang in the neighborhood of Troy and West streets. On returning to the place where the negro was beaten, it was ascertained that he had left, and no further tidings of him could be obtained. It is supposed that if he had any valuables in his posses sion the assailants robbed him of them.

CAPITRE OF HIGHWAY ROBBERS -Policemen Callaham and Murphy of the First Ward succeeded in ar resting, at 1 o'clock yesterday morning, three men named Daniel O'Neil, Edward McCarty and Robert Wilson, who were in the act of escaping with a watch belonging to Hans Brown, whom they had waylaid, beaten and robbed while he was passing through Rector street. The prisoners were taken before Justice Connelly and locked up for trial.

ROBBERY OF A DRY GOODS STORE .- A dry good store in Carmine street was entered on Tuesday night, and silks to the amount of about \$300 stolen there from. The robbers effected an entrance through skylight in the back part of the store.

RUS OVER .- James McGuire, a fireman, was run over and severely injured about 2 o'clock yesterday morning by engine No. 30, as it was passing the somer of 9th-av. and 3tch st. The police conveyed Mr. McGuire to a drug store, where he was properly taken care of.

A SAILOR WITH THREE WIVES.—Samuel Nash, an English sallor, was yesterday arrested by Officer Oakford of the Lower Police Court, charged with being the husband of three wives, all of whom are now living. It was alleged that in June, 1822, he was married to Miss Mary Dally, in Boston, who is the complainant in the case. In November last the married Catharine Lucy, Dominie Pease of the Five-points Mission being the officiating clergyman. He has also, as is stated, a third wife lying sick at the Brocklyn Hospital. This ardent admirer of the fair sex was locked up by Justice Connoily for examination.

DETECTION AND ARREST OF BURGLARS. -Two men DETECTION AND ARREST OF DEROLARS. IN Our maned James Johnson and John H. The burglars ded on seeing the officers, but were pursued, one into an alley in Twenty-sixth street and the other into the cellar of a grocery, where they were secured. Yesterday they were taken before Justice Davidson and locked up for trial.

A Monkey Trick.—A keeper of a restaurant in the lower part of the city, has a ring tailed monkey for a pet, which he usually leaves at his place of business on locking it up for the night. When the doors and shutters were opened yesterday morning, nothing was to be seen of the monkey, but no aperture could be discovered by which he might have escaped. This mysterious disappearance haffled search for some time; but Jucko being loudly called, was at last observed peeping through the door of the stove, into which he had crept for comfort after the fire expired. PICKPOCKETS ON THE PERSIA.—The men on board of the Persia found thirteen porte-monnaies and pocket-books which had been picked from the pockets of those who visited the ship on Monday and Tuesday; the money taken out and the pocket-books thrown under the berths in some of the staterooms. It is believed that they were mostly stolen by female pickpockets. In some of them were return railroad tickets to New ark and Paterson.

BELEASE OF A PRISONER FOR HUMANITY .- A telegraphic dispatch to the editor of The Sabbath Recorder, from Baton Rouge, La., brings intelligence that Pardon Davis, who was sentenced to twenty years' imprisonment in the Louisiania Penitentiary for aiding slaves to escape from their masters, has been set at liberty by the Governor, after being confined less than a year and a half. Mr. Davis was a native of Wisconsin. Some three years ago he went to Louisiana, where he established a yard for supplying wood to steamers on the Mississippi River. While thus em ployed three colored men came to his premises, tired and sore, and requested permission to rest themselves, which he granted. When they wanted to leave, he supplied them with bread, gave to one a hat, to another a pair of shoes, to another a shirt, and to the company a blanket and some money, set them across the river, and pointed them to the North Star. They were subsequently overtaken by the slavehunters and compelled to disclose the name of their benefactor. He was arrested, and after a summary trial before a company of persons who threatened to lynch him if not convicted, he was condemned to twenty years' imprisonment in the Penitentiary, from which he has been released, as above stated, by the Governor.

Then there is no "exclusion" of Roman Catholics from Know-Nothing Lodges; for there is not, probably, one in the country who admits that his obligation to any "foreign ecclesiastical authority" is superior to his "obligation of obedience to the Constitution of the United States." This will not, we think, be acknowledged as orthodox by those who went lato Know-Nothingism solely because it promised to wage a war of extermination upon the "scarlet lady."
